

JÜV wall

Holistic, height-adjustable solution rejuvenates wellbeing + productivity

Create office designs that inspire movement with JÜV™ Wall by Ergotron. The non-electric, adjustable surface provides the full BIFMA ergonomic range and integrated cable management—an industry first—for comfortable sitting or standing. Reclaim valuable space by flipping down the worksurface when not in use.

Users have access to power and charging at their fingertips without sacrificing aesthetics with the controlled and concealed cable management system. With no floor supports, it provides ample legroom and additional space for storage or accessories.

MOVE TO REJUVENATE

ENGINE		WORKSURFACES		ACCESSORIES	
61-333-029	Lift Engine, Graphite	JWW-61100-A-897	61 x 100 x 2 cm, 2 mm ABS, Icy White	83-091-029	Standard Electric Unit, EU, Graphite
